

My name is Ron Cauthern, and I have been creating art for over 30 years, even before coming to Death Row.

I create various forms of art because it passes the time. Along the way, it often makes a statement of its own.

The plane that I have designed is to cause conversation about Capital Punishment. The States Act of Murder to its former citizens is fueled by indifference. The plane is fueled by society having a desire for revenge cloaked in the guise of justice. As the support for Capital Punishment continues it also creates more victims.

No matter how you do it, legislated killing is still killing.

If you have any questions about one of my art, just write and let me know.

51 Legislated Killing is still KILLING 

LEGAL MURDER
IS STILL MURDER!

Plane is a representation of the lethal Injection Process. Prisoners once injected scream out they are on fire, being burned alive from the inside out. The Poison at the Tail moving up to the front. The reason Capital Punishment exists is b/c it's fueled by indifference on a public + legislative level.

Song: Somewhere Out there
